Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[Addcoin.java]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
[User will be prompted to input 4 different amounts of coins for the following: quarters, dimes, nickels and pennies.]	[With the collected data from the user the system will multiple every single coin by the amount that they're worth. And then add them all up for a final value in dollar amount EX: quarters *=.25 dimes *=.10 nickels *=.05 pennies *=0.01 Double amount = quarters + dimes + nickels + pennies]	[The system will print out a statement regarding the total amount of money that those coins amounted to.] 'Your total is \$###'
